Khushbu R Hajari

+91 9663553530 | khushbuhajari530@gmail.com | github.com/Khushbu-github | linkedin.com/in/khushbu-r-hajari | Bengaluru, India

Full-stack Software Engineer (AI/ML undergrad, CGPA 9.07/10) who has shipped 15+ production web apps and AI-integrated platforms using React, Node.js, Python, and FastAPI — cutting dev and processing time by up to 60% and placing in 15+ national hackathons.

Education

Dayananda Sagar College of Engineering, Bengaluru 2023 – 2027
B.E. in Artificial Intelligence and Machine Learning *CGPA: 9.07/10.0*

JS Pre-University College, Bengaluru 2021 – 2023
KSEAB Board, Class XII *95.67%*

Pine Woods English School, Bengaluru 2015 – 2021
KSEAB Board, Class X *97.28%*

Technical Skills

Languages:	TypeScript, JavaScript, Python, C++, C
Frontend:	React.js, Next.js, Tailwind CSS, Responsive Design, Component Libraries
Backend:	FastAPI, Node.js, Express.js, REST APIs, JWT, Microservices, WebSockets
Databases:	PostgreSQL, MySQL, SQLite, MongoDB, Redis
System Design:	Microservices Architecture, API Design, Scalable Systems, CI/CD Pipelines
Dev Tools:	Git, Docker, Linux, Postman, Agile, SDLC
AI Integration:	LLMs, LangChain, RAG, Multi-Agent Systems, Prompt Engineering

Professional Experience

DigitalOrbit 2025 – Present
Full Stack Software Engineer (Freelance) *Bengaluru, India*

- Architected, built, and deployed **15+ production-ready full-stack web applications** end-to-end, sustaining **99%+ uptime** through resilient system design, proactive monitoring, and automated CI/CD pipelines.
- Improved Core Web Vitals and search rankings for clients by refactoring performance bottlenecks, accelerating load times.

MyStartupWave Nov 2025 – Dec 2025
Software Engineer Intern *Bengaluru, India*

- Built a reusable React + Tailwind CSS component library adopted across product pages, cutting UI dev time by **30%**.
- Integrated frontend modules with backend REST APIs under Agile sprint cycles, reducing integration turnaround time by **40%** and strengthening cross-team collaboration.

Projects

InterXAI | *React, Node.js, Groq LLM, FaceAPI, Multi-Agent Workflows* | GitHub

- Engineered a multi-agent AI interview automation platform handling resume parsing, live interviews, and facial analysis.
- Designed a pipeline spanning candidate ingestion, scoring, feedback, and reporting, cutting interview turnaround time.

IntelliCredit | *React, FastAPI, Python, Docker* | GitHub

- Built a credit appraisal system (FastAPI, React, Docker) integrating PDF OCR, GST anomaly detection, and an MCA research agent.
- Automated CAM report generation across multi-document data with AI-driven approve/reject decisioning, cutting manual effort by **60%**.

Bengaluru Smart City Incident Analyzer | *Python, FastAPI, React, LangChain, Docker* | GitHub

- Developed a civic-analytics platform fusing traffic, accident, and weather data for real-time hotspot detection and risk prediction.
- Built a LangChain RAG pipeline over civic datasets with a geospatial dashboard, deployed end-to-end via Docker.

Certifications

Infosys Certified C++ Programmer	Infosys Springboard	*Jun 2024*
Infosys Certified C Programmer	Infosys Springboard	*Jun 2024*
Advanced Diploma in Computer Programming (ADCP)	PACE Institute	*Jul 2023*

Achievements

Winner – Srujana 2025 (Chanakya University), AI Verse Hackathon (Amrita Vishwa Vidyapeetham), HacktoCrack National Hackathon (Vimeet)

Runner-up – Dev Duel Hackathon (IIT Hyderabad), Udaya (DSI); placed Winner, Runner-up, or Finalist in **15+ national hackathons** overall.
